COUNTY GOVERNMENTS
BUDGET IMPLEMENTATION REVIEW REPORT

FIRST NINE MONTHS

FY 2016/17

MAY, 2017

PREFACE

I am pleased to present the quarterly County Governments Budget Implementation Review Report (CBIRR) for the first nine months of FY 2016/17. This report has been prepared pursuant to Article 228 (6) of the Constitution of Kenya, 2010 and Section 9 of the Controller of Budget Act, 2016 which require the Controller of Budget to submit to each House of Parliament a report on the implementation of the budgets of the National and County Governments every four months.

This is the third CBIRR in FY 2016/17 and presents budget performance by the forty seven counties for the period June 2016 to March 2017. It highlights progress made in the FY 2016/17 budget implementation, identifies the key challenges facing budget implementation and also provides recommendations aimed at enhancing budget execution.

The report is based on data from the approved county budgets, financial reports submitted to the Office of the Controller of Budget (OCOB) by the County Treasuries in line with Section 166 and 168 of the Public Finance Management (PFM) Act, 2012 and reports generated from the Integrated Financial Management Information System (IFMIS). The analysis and findings are aligned to provisions of the Constitution of Kenya, 2010 and the Public Finance Management Act, 2012.

Preparation of this report has been made possible through concerted effort of staff from the County Treasuries and the OCOB. I am grateful to all the staff who were involved in the preparation of this report.

This report is intended to inform oversight institutions, the public, policy makers, analysts and other stakeholders on the progress made by county governments in implementing the FY 2016/17 budgets. It is my hope that readers of this report will continually take interest in monitoring the budget implementation status and ultimately promote prudent financial management of public resources.

Mrs. Agnes Odhiambo, CBS

Controller of Budget

EXECUTIVE SUMMARY

This is the third County Budget Implementation Review Report (CBIRR) for the Financial Year (FY) 2016/17 and covers the period July 2016 to March 2017. It presents the progress made by the County Governments in budget implementation by analysing the revenue received and expenditure incurred during the period against the annual budgeted estimates. Expenditure analysis is based on financial returns made by the County Treasuries in line with Section 166 and 168 of the Public Finance Management (PFM) Act, 2012 and expenditure reports generated from the Integrated Financial Management Information System (IFMIS).

On aggregate, the FY 2016/17 approved budgets for the County Governments amounted to Kshs.400.25 billion comprising Kshs.234.73 billion (58.6 per cent) for recurrent expenditure and Kshs.165.51 billion (41.4 per cent) for development expenditure. County governments were allocated Kshs.280.3 billion as the equitable share of revenue raised nationally and Kshs.21.90 billion as total conditional grants from the National Government and Development Partners. Additionally, they expected to raise Kshs.59.71 billion from local sources, and also utilize Kshs.38.55 billion cash balance from FY 2015/16.

During the reporting period, the total revenue available to the County Governments amounted to Kshs.251.53 billion. This amount comprised of Kshs.185.23 billion from the equitable share of revenue raised nationally, conditional grants to Level 5 Hospitals, and grants from DANIDA; Kshs.24.71 billion from local sources, Kshs.2.59 billion for Free Maternal Healthcare, Kshs.450 million for User Fees Foregone, and Kshs.38.55 billion cash balance from FY 2015/16.

In the first nine months of the FY 2016/17, the aggregate revenue raised by County Governments amounted to Kshs.24.71 billion which was 41.4 per cent of the annual local revenue target of Kshs.59.71 billion. This performance represented a decrease of 4.6 per cent compared to Kshs.25.89 billion raised in a similar period of FY 2015/16.

Analysis of the local revenue collected indicates that Nairobi City, Mombasa and Kiambu Counties generated the highest local revenue in absolute terms at Kshs.8.72 billion, Kshs.1.94 billion and Kshs.1.64 billion respectively. Conversely, Tana River, Mandera and Lamu Countries generated the lowest local revenue at Kshs.22.25 million, Kshs.44.55 million and Kshs.51.02 million respectively.

The Controller of Budget (COB) authorised withdrawal of **Kshs.229.85 billion** from the County Revenue Funds to the various County Operational Accounts representing 57.43 per cent of the total Approved Budget Estimates for FY 2016/17. The withdrawals comprised of Kshs.156.98 billion (68.3 per cent) for recurrent activities and Kshs.72.87 billion (31.7 per cent for development projects. The Counties that received the highest amount of funds for operations were; Nairobi City at Kshs.10.89 billion; Turkana at Kshs.10.07 billion; and Kiambu at Kshs.7.75 billion. Conversely, those that received the lowest were; Lamu at Kshs.2.04 billion, Isiolo at Kshs.2.32 billion and Tharaka Nithi at Kshs.2.57 billion.

The aggregate expenditure for the period was **Kshs.207.82 billion** which comprised of Kshs.145.07 billion for recurrent expenditure (61.8 per cent of the annual recurrent budget) and Kshs.62.74 billion for development expenditure (37.9 per cent of the annual development budget). The expenditure of Kshs.207.82 billion was **51.9 per cent** of the annual County Governments budgets and an increase

of 13.1 per cent from Kshs.183.76 incurred in a similar period of FY 2015/16. Counties that recorded the highest aggregate absorption rates were; Isiolo at 68.4 per cent, Tana River at 65.8 per cent, and Bomet at 35.2 per cent. Conversely, Kirinyaga, Kwale, and Lamu Counties recorded the lowest overall absorption rates at 42.1 per cent, 41.4 per cent, and 27.2 per cent respectively.

Counties with the highest absorption rate of development expenditure were Tana River at 72.1 per cent, followed by Bomet and Isiolo at 65.5 per cent and 61.2 per cent respectively. Lamu, Nairobi City and Taita Taveta counties recorded the least at 8.3 per cent, 12.9 per cent and 19.8 per cent, respectively. Absorption rate is computed as a percentage of total expenditure to the Approved Budget.

Analysis of expenditure by economic classification shows that Kshs.91.39 billion (44 per cent) was spent on personnel emoluments, Kshs.53.68 billion (25.8 per cent) on operations and maintenance, and Kshs.62.74 billion (30.2 per cent) on development activities. A review of personnel emoluments as a percentage of total expenditure indicates that Nairobi City, Taita Taveta, and Tharaka Nithi recorded the highest percentage at 63.6 per cent, 61.2 per cent and 61.1 per cent respectively.

The Office identified some challenges that faced budget implementation by the County Governments. These included; high expenditure on personnel emoluments which stood at 43.3 per cent of total expenditure for the reporting period, delays in establishment and operationalization of County Budget and Economic Forums (CBEF) contrary to Section 137 of the PFM Act, 2012, IFMIS connectivity challenges, under-performance in local revenue collection, which was 41.4 per cent of the annual target, and, delays in the establishment of Internal Audit Committees.

The Office recommends that Counties should ensure the wage bill does not exceed 35 per cent of their total revenue in line with Regulation 25 (1) of the Public Finance Management (County Government) Regulations 2015. Further, the Counties should establish the County Budget and Economic Forums, liaise with the National Treasury to address the IFMIS connectivity challenges and also operationalize the Internal Audit Committees.

1 INTRODUCTION

This County Budget Implementation Review Report (CBIRR) by the Office of the Controller of Budget (OCOB) covers the period July 2016 to March 2017. It has been prepared in fulfilment of Article 228(6) of the Constitution of Kenya, 2010, Section 9 of the Controller of Budget Act, 2016 and Section 39 (8) of the Public Finance Management (PFM) Act, 2012 that require the Controller of Budget (COB) to submit quarterly reports to Parliament on budget implementation and also ensure members of the public access information on budget implementation by the National and County Governments.

The CBIRR is mainly based on quarterly financial reports submitted to the COB by the County Governments in line with Section 166 and 168 of the Public Finance Management (PFM) Act, 2012 and data obtained from the Integrated Financial Management System (IFMIS). The Disbursement Schedule contained in the County Allocation of Revenue Act (CARA), 2016 has been used to provide information on expected revenue flow from the National Government.

The report is organized into five chapters. Chapter one is the introduction while chapter two analyses cumulative budget performance by the Counties. Specifically, it presents an analysis of revenue performance, and a review of actual expenditure against approved budget estimates for individual counties and at aggregate level. Overall expenditure is analysed by recurrent and development expenditure categories. Recurrent expenditure is further analysed by economic classification of personnel emoluments and operations and maintenance; which is further analysed to identify costs on sitting allowances for Members of County Assemblies (MCAs), and, domestic and foreign travel expenditure. Absorption rate is used to measure performance and is computed as a percentage of expenditure against the approved annual budget estimates.

Chapter three presents county specific budget implementation performance. It presents information on budget allocation, revenue analysis, exchequer issues and expenditure in the first nine months of FY 2016/17. It also highlights the progress made in implementing recommendations contained in prior reports by the OCOB and identifies challenges that hampered budget execution in the reporting period. Appropriate recommendations are included to address the challenges faced by each County.

The cross-cutting challenges and recommendations to enhance smooth execution of budgets by the County Governments are highlighted in chapter four. Finally, the conclusion is provided in chapter five.

2 FINANCIAL ANALYSIS OF COUNTY GOVERNMENTS BUDGET IMPLEMENTATION IN THE FIRST NINE MONTHS OF FY 2016/17

2.0 Introduction

This chapter presents financial analysis of aggregated county budget implementation for the first nine months of FY 2016/17.

2.1 Annual Budget Financing

In FY 2016/17, the combined approved County Government Budgets amounted to Kshs.400.25 billion and comprise of Kshs.234.73 billion (58.6 per cent) allocated to recurrent expenditure and Kshs.165.51 billion (41.4 per cent) for development expenditure.

In order to finance the budgets, County Governments expect to receive Kshs.280.3 billion as equitable share of revenue raised nationally, Kshs.21.9 billion as total conditional grants from the National Government and Development Partners, generate Kshs.59.71 billion from local sources, and utilize Kshs.38.55 billion projected cash balance brought forward from FY 2015/16. The conditional grants comprise of Kshs.4.5 billion for Leasing of Medical Equipment, Kshs.4.12 billion for Free Maternal Healthcare, Kshs.4 billion for Level 5 Hospitals, Kshs.4.31 billion from the Road Maintenance Fuel Levy Fund, Kshs.900 million for Compensation of User Fees Foregone, Kshs.200 million as special purpose grant to support Emergency Medical Services, Kshs.422.36 million from DANIDA, Kshs.1.3 billion as World Bank loan, and Kshs.2.15 billion as Conditional Allocation from Other Loans and Grants. These Conditional Grants were contained in the County Allocation of Revenue Act (CARA), 2016.

2.1.1 Budget Financing in the First Nine Months of FY 2016/17

The total funds that were available to the County Governments in the first nine months of FY 2016/17 amounted to Kshs.251.53 billion. This amount consisted of Kshs.185.23 billion from the equitable share of revenue raised nationally, conditional grants to Level 5 Hospitals, and grants from DANIDA; Kshs.24.71 billion as revenue generated from local sources; Kshs.2.59 billion for Free Maternal Healthcare, Kshs.450 million for User Fees Foregone, and Kshs.38.55 billion cash balance brought forward from FY 2015/16.

2.2 Locally Collected Revenue

The aggregate annual local revenue target for counties in FY 2016/17 is Kshs.59.71 billion. During the reporting period, the County Governments generated a total of Kshs.24.71 billion, which was 41.4 per cent of the annual target. This was a decrease compared to Kshs.25.89 billion (46.9 per cent of FY 2015/16 annual revenue target) realised in a similar period of FY 2015/16. The monthly local revenue collection in the first nine months of FY 2016/17 and in a similar period of FY 2015/16 is shown in Figure 2.1.

The total local revenue collection for all the 47 counties was 41.4 per cent of the annual local revenue target of Kshs.59.71 billion. Analysis of local revenue as a proportion of the annual revenue target by county indicated that Bomet County attained the highest proportion at 94.9 per cent followed by Marsabit and Bungoma at 74.8 per cent and 72 per cent respectively. Conversely, counties that

recorded the lowest proportion of local revenue against annual targets were Mandera at 16.8 per cent, Garissa at 17.8 per cent and Wajir at 25.5 per cent.

The Counties that attained the highest expenditure in absolute terms were; Nairobi City at Kshs.15.12 billion, Turkana at Kshs.8.31 billion, and Kiambu at Kshs.7.9 billion while the lowest expenditure was recorded by Lamu, Tharaka Nithi, and Kirinyaga counties at Kshs.0.87 billion, Kshs.1.94 billion, and Kshs.2.21 billion, respectively.

Counties that recorded the highest overall absorption rates were Isiolo at 68.4 per cent, Tana River at 65.8 per cent and Bomet at 65.2 per cent. Conversely, Kirinyaga, Kwale, and Lamu Counties recorded the lowest overall absorption rates at 42.1 per cent, 41.4 per cent, and 27.2 per cent respectively. The overall absorption rate is computed as a percentage of total expenditure to the Approved County Budget.

Analysis of total expenditure as a percentage of the total funds authorized for withdrawal by the Controller of Budget indicated that expenditure by five Counties, namely; Nairobi City at 138.9 per cent, Isiolo at 110.3 per cent, Wajir at 104.1 per cent, Kilifi at 102.6 per cent, and Kiambu at 102 per cent exceeded the funds authorized for withdrawal by the Controller of Budget. This may be attributed to spending of local revenue at source contrary to Section 109 of the PFM Act, 2012.

A review of cumulative expenditure by economic classification showed that Kshs.91.39 billion (44 per cent) was spent on personnel emoluments, Kshs.56.68 billion (25.8 per cent) on operations and maintenance, and Kshs.62.74 billion (30.2 per cent) on development activities.

2.4.1 Development Expenditure

The County Governments spent **Kshs.62.74 billion** on development activities, representing an absorption rate of **37.9 per cent** of the annual development budget, which is an increase from **33.9 per cent**, reported in a similar period of FY 2015/16 when development expenditure was Kshs.55.32 billion.

Analysis of county budgets and expenditure in the first nine months of FY 2016/17 is provided in Table 2.4.

- Improvement in local revenue collection by 10 per cent from Kshs.202.43 million in the first nine months of FY 2015/16 to Kshs.222.71 million in the reporting period.

3. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of PFM Act, 2012.*
2. *The Fund Administrator should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*

- Improvement in the use of IFMIS and Internet Banking platform to process financial transactions.

Despite above the progress, the following challenges continued to hamper effective budget implementation;

- High wage bill which has increased by 40.4 per cent to Kshs.1.64 billion in the reporting period

compared to a similar period of FY 2015/16 when the County spent Kshs.1.17 billion, and represented 44.6 per cent of total expenditure.

2. Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation report.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Public Service Board should establish an optimal staffing structure in order to manage the wage bill.*
2. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of PFM Act, 2012.*

3.3.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Improvement in staff capacity through training.

- ii. Automation of revenue collection which has led to improved local revenue collection by 60.8 per cent from Kshs.327.63 million in the first nine months of FY 2015/16 to Kshs.526.71 million collected in a similar period of FY 2016/17.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation report.
2. High wage bill, which increased by 16 per cent from Kshs.2.08 billion in the first half of FY 2015/16 to Kshs.2.41 billion in the period under review, representing 45.6 per cent of the total expenditure for the period.
3. From analysis of bank statements and expenditure returns, the Office has noted spending of revenue at source in contravention of Section 109 of the PFM Act 2012. Specifically, the Department of Health and Agriculture did not bank all its revenue receipts into the CRF account.
4. Slow implementation of development activities during the first nine months of FY 2016/17. The County spent Kshs.994.79 million which represented 26.7 per cent of the annual development budget of Kshs.3.73 billion, against an expected absorption rate of 75 per cent.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Controller of Budget in line with Section 166 of PFM Act, 2012.*
2. *The County Public Service Board should establish an optimal staffing structure in order to ensure a sustainable wage bill.*
3. *The County Treasury should ensure adherence to Section 109 of the PFM Act, 2012 and bank all revenue receipts intact into the CRF account.*
4. *The County should identify and address issues that cause delays in the implementation of development projects.*

On the other hand, the Department of Finance and ICT had the highest percentage of recurrent expenditure to recurrent budget at 88.6 per cent while the Office of the County Secretary had the lowest at 6.6 per cent.

3.4.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Establishment of the County Budget and Economic Forum in line with Section 137 of the PFM Act, 2012.
- ii. Timely submission of quarterly financial reports by the County Government entities in line with Section 166 of the PFM Act, 2012.

Despite the progress made, the following challenges continued to hamper effective budget implementation:

1. Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to the provisions of Section 155 of the PFM Act, 2012.
2. Under-performance in local revenue collection. Local revenue collection has declined by 20.1 per cent from Kshs.256.67 million in the first nine months of FY 2015/16 to Kshs.205 million in the reporting period.
3. Failure to bank all locally collected revenue into the County Revenue Fund Account held with the Central Bank of Kenya (CBK) contrary to Section 109 of the PFM Act, 2012. An analysis of reports submitted to the OCOB indicates that while Kshs.205 million was collected locally, Kshs.189.28 million was banked into the CRF account at the CBK during the reporting period.

The County should implement the following recommendations in order to improve budget execution:

1. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012*
2. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
3. *The County should ensure all revenue collected is banked intact into the County Revenue Fund account in line with Section 109 of the PFM Act, 2012.*

2. Under-performance in local revenue collection. Local revenue collection has declined by 20.4 per cent from Ksh.94.90 million in the first nine months of FY2015/16 to Kshs.75.59 million in the reporting period.
3. Failure to make regular repayment of the County Executive Car Loan and Mortgage Fund facility by some members contrary to the Approved Regulations.

The County should implement the following recommendations in order to improve budget execution;

1. *The County should reconcile the IFMIS and IPPD data on a monthly basis to enhance accuracy in reporting.*

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of PFM Act, 2012.*
2. *The County should ensure regulations establishing any County Public Funds are in place in line with Section 116 of the PFM Act, 2012. This should be done before operationalization of the established County Public Fund.*
3. *The County Treasury should liaise with the IFMIS Directorate for support in the application of IFMIS and the E-procurement module.*

3.8.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Automation of local revenue collection which may enhance collection, reduce leakages and improve reporting.

- ii. Establishment of a County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.
- iii. Improvement in staff capacity through training.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Spending of revenue at source in contravention of Section 109 of the PFM Act 2012. From analysis of bank statements and expenditure returns, the COB has noted that the Department of Health did not bank all its revenue receipts into the CRF account.
2. Under-performance in local revenue collection. Local revenue collection declined by 17.2 per cent from Kshs.138.43 million in the first nine months of FY 2015/16 to Kshs.114.63 million in the reporting period.
3. The COB has noted, from the analysis of bank statements and expenditure reports that the County has continued to make financial transactions from bank accounts maintained at commercial banks and made cheque payments. This contravenes Government policy which requires that all payments by government to be made online through Internet Banking platform.

The County should implement the following recommendations in order to improve budget execution;

1. *The County should ensure all departments adhere to Section 109 of the PFM Act, 2012 and bank all revenue receipts into the CRF account.*
2. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
3. *Accounting Officers should ensure payments are made online through the prescribed Internet Banking platform operated by the Central Bank of Kenya.*

- Improved capacity of the technical staff through training.
- Use of IFMIS and the Internet Banking platform in processing financial transactions.

The following challenges continued to hamper effective budget implementation:

1. Failure to pay suppliers in time which led to a High Court orders that attached the County Revenue Collection Account at Consolidated Bank. A total of Kshs.27.80 million was recovered directly from the County Collection Account during the period.
2. Delay by Fund Administrators to submit expenditure reports on the Bursary Fund, Emergency Fund, MCA Car Loan Fund contrary to Section 168 of the PFM Act, 2012.
3. Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation report.
4. Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to Section 155 of the PFM Act, 2012.
5. The County has not constituted the CBEF in line with Section 137 of the PFM Act, 2012 for consultation in the budget process and economic matters.
6. Under-performance in local revenue collection. Local revenue collection declined by 9.8 per cent from Kshs.85.02 million collected in a similar period of FY 2015/16 to Kshs.76.75 million in the reporting period.

The County should implement the following recommendations in order to improve budget execution;

1. *The County should ensure payments to suppliers for good and services delivered is done in a timely manner.*
2. *The Bursary, Car Loan, Mortgage, and Emergency Fund Administrators should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*
3. *The County Treasury should ensure timely preparation and submission of financial reports in line with Section 166 of PFM Act, 2012.*
4. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*
5. *The County should establish the CBEF in line with Section 137 of the PFM Act, 2012.*
6. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*

3.10.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Improved adherence to budget timelines. For example, the CECM-F submitted the 2017 CFSP

to the County Assembly in December, 2016 for approval, which is within the legal timelines.

- ii. Automation of local revenue collection which is anticipated to increase County revenue in the future.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Delays by Fund Administrators to regularly submit quarterly expenditure reports on the Bursary Fund, Emergency Fund, Car & Mortgage Fund for Executive, Disability Fund, and Youth and Women Enterprise Fund contrary to Section 168 of the PFM Act, 2012.
2. Under-performance in local revenue collection. Local revenue collection declined by 13.5 per cent from Kshs.462.77 million in the first nine months of FY 2015/16 to Kshs.400.23 million in the reporting period.
3. IFMIS connectivity challenges, which slowed down approval of procurement requests and payments.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely submission of expenditure reports on the established Funds in line with Section 168 of the PFM Act, 2012.*
2. *The County should develop and implement strategies to enhance revenue collection.*
3. *The County Treasury should liaise with the IFMIS Directorate for support in the use of IFMIS and the E-procurement modules.*

3.12.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Timely submission of quarterly financial statements on County Funds in line with Section 166 of the PFM Act, 2012.
- Improvement in technical capacity through continuous staff training and recruitment of key personnel.

- iii. Improved performance in local revenue collection by 43.3 per cent from Kshs.249.13 million achieved in the first nine months of FY 2015/16 to Kshs.356.87 million realised in the reporting period.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. IFMIS operational challenges which, affected effective budget implementation by slowing down procurement processes and settlement of supplier invoices
2. An escalating wage bill from Kshs.1.35 billion spent in the first nine months of FY 2015/16 to Kshs.1.37 billion during the period under review, excluding salaries and allowances paid in April, 2017 for the month of March, 2017.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should liaise with the National Treasury to ensure that IFMIS downtimes and connectivity challenges are resolved.*
2. *The County Public Service Board should establish and implement an optimal staffing structure in order to manage the rising the wage bill.*

3.13.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Establishment of the County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.
- Improvement in the administration and reporting on the established County Funds.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- IFMIS connectivity challenges, which slowed down approval of procurement requests and payments to suppliers.
- Under-performance in local revenue collection. Local revenue collected in the first nine months of FY 2016/17 amounted to Kshs.1.64 billion which is a decrease compared to Kshs.1.81 billion generated in a similar period of FY 2015/16, and represented a decline of 9.4 per cent.

The County should implement the following recommendations in order to improve budget execution;

- 1. The County Treasury should liaise with the IFMIS Directorate for support in application of IFMIS and the E-procurement module.*
- 2. The County Treasury should develop and implement strategies to enhance local revenue collection.*

- Improved adherence to budget timelines. The County Executive Committee Member for Finance (CECM-F) submitted the FY 2017/18 budget estimates to the County Assembly on 29th February 2017 for consideration and approval.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation reports.
- Failure to establish an Internal Audit Committee to oversee financial operations in the County

contrary to Section 155 of the PFM Act, 2012.

4. The County has not constituted the County Budget and Economic Forum (CBEF) as required by Section 137 of the PFM Act, 2012 for consultation in the budget process.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should liaise with IFMIS Directorate to ensure support in use of IFMIS and the E-procurement module*
2. *The County Treasury should ensure timely submission of financial reports in line with Section 166 of the PFM Act, 2012.*
3. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*
4. *The County should establish the CBEF in line with Section 137 of the PFM Act, 2012.*

Analysis of budget performance by department shows that the Office of the Governor attained the highest absorption rate of development budget at 87.2 per cent, followed by the Department of Environment and Natural Resources at 43.1 per cent. On the other hand, the Department of Education had the highest percentage of recurrent expenditure to recurrent budget at 79.4 per cent, followed by the County Assembly at 66.9 per cent.

3.15.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made include:

- i. Compliance with the requirement to use IFMIS and internet banking by the County Assembly which has ensured transparent financial management and standard financial reporting as contemplated by Article 226 of the Constitution.
- ii. Establishment of the County Budget and Economic Forum (CBEF) as per the requirement of Section 137 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. High wage bill at Kshs.1.15 billion which accounted for 55.2 per cent of the total expenditure during the reporting period.
2. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.
3. Under-performance in local revenue collection. In the FY 2016-17, the County local revenue target was Kshs.743 million compared to actual local revenue receipt of Kshs.390.38 million in FY 2015/16. The County had collected 34.1 per cent of the annual target as at the end of March 2017.
4. Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to Section 155 of the PFM Act, 2012.
5. Delay by Fund Administrators to submit expenditure reports on the established County Funds

contrary to Section 168 of the PFM Act, 2012. The expenditure returns which were pending include those for the Bursary Fund, Emergency Fund, and Car & Mortgage Fund.

The County should implement the following recommendations in order to improve budget execution;

- 1. The County Public Service Board should develop an optimal staffing structure, devise and implement strategies to address the escalating wage bill.*
- 2. The County Treasury should liaise with the IFMIS Directorate for support in the use of IFMIS and the E-procurement module.*
- 3. The County Treasury should develop and implement strategies to enhance local revenue collection.*
- 4. The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*
- 5. The respective Fund Administrator should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*

3.16.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Establishment of the County Budget and Economic Forum in line with Section 137 of the PFM Act, 2012.
- ii. Establishment of an Internal Audit Committee in compliance with Section 155(5) of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Delay in disbursement of the equitable share of revenue raised nationally by the National Treasury.
As at the end of the reporting period, Kshs.4.71 billion had been disbursed against an expected

disbursement of Kshs.6.08 billion.

2. Spending of local revenue at source in contravention of Section 109 of the PFM Act, 2012. From the analysis of bank statements and expenditure returns, the OCOB noted that the Department of Health Services and the Department of Trade Regulations and Development did not bank all local revenue receipts into the CRF account.
3. High wage bill that increased by 16.1 per cent from Kshs.2.61 billion in the first nine months of FY 2015/16 to Kshs.2.88 billion in the period under review, representing 53.8 per cent of the total expenditure.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should liaise with the National Treasury to ensure that funds allocated to the County are released in a timely manner in line with the CARA, 2016 Disbursement Schedule.*
2. *The County should ensure all departments adhere to Section 109 of the PFM Act, 2012 and bank all revenue receipts into the CRF account.*
3. *The County Public Service Board should establish an optimal staffing structure in order to manage the wage bill.*

2. Late submission of financial reports by the County Treasury, which affected timely preparation of the budget implementation report.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely payment of statutory deductions to avoid penalties.*
2. *The County Treasury should ensure timely submission of revenue and expenditure reports to the Controller of Budget in line with Section 166 of the PFM Act, 2012.*

- Improvement in absorption rate of development budget by 2.9 per cent from Kshs.1.94 billion development expenditure in the first nine months of FY 2015/16 to Kshs.2 billion in the reporting period.
- The County has commenced the process of recruiting members of the Internal Audit Committee in line with Section 155 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- Late submission of financial reports by the County Treasury and Administrators of County Funds,

which affected timely preparation of budget implementation report.

2. High expenditure on domestic and foreign travel, which has increased by 78.4 per cent from Kshs.143.78 million in the first nine months of FY 2015/16 to Kshs.256.58 million in the current reporting period.
3. Under-performance in local revenue collection. Local revenue collection has declined by 24.4 per cent from Kshs.311.43 million in the first nine months of FY 2015/16 to Kshs.235.54 million in the reporting period.
4. IFMIS connectivity challenges, which slowed down approvals of procurement requests and payments.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury and Administrators of County Funds should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget within a period prescribed by the COB in line with Section 16 of the COB Act, 2016.*
2. *Expenditure on domestic and foreign travel should be contained to free up resources for development spending.*
3. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
4. *The County Treasury should liaise with the IFMIS Directorate for support in the use of IFMIS and the E-procurement module.*

3.19.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made include:

- Establishment of an Internal Audit Committee in compliance to Section 155 (5) of the PFM Act, 2012.
- Timely submission of quarterly reports in line with Section 166 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Delay in disbursement of the equitable share of revenue raised nationally by the National Treasury. As at the end of the reporting period, Kshs.3.23 billion had been disbursed against an expected disbursement of Kshs.4.15 billion.
2. High wage bill that increased by 19.5 per cent from Kshs.1.12 billion in the first nine months of FY 2015/16 to Kshs.1.34 billion in the period under review and represented 39.7 per cent of the total expenditure for the reporting period.
3. Under-performance in local revenue collection. Local revenue collection has declined by 10.5 per cent from Kshs.177.58 million in the first nine months of FY 2015/16 to Kshs.159.02 million in the reporting period.
4. IFMIS connectivity challenges, which slowed down approval of procurement requests and payments.

The County should implement the following recommendations in order to improve budget execution are:

1. *The County Treasury should liaise with the National Treasury to ensure that funds allocated to the County are released in a timely manner in line with the CARA, 2016 Disbursement Schedule.*
2. *The County Public Service Board should establish an optimal staffing structure in order to manage the wage bill.*
3. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
4. *The County Treasury to liaise with the IFMIS Directorate for support in utilization of IFMIS and E-procurement module.*

Analysis of budget performance by department shows that the Department of Transport, Roads and Housing attained the highest absorption rate at 116.1 per cent while the Department of Environment, Sanitation and Solid Waste Management, and the County Public Services did not incur any development expenditure in the period under review. On the other hand, the Department of Public Services, ICT and Labour had the highest percentage of recurrent expenditure to its recurrent budget at 534.8 per cent while the Department of Agriculture, Lands and Urban development had the lowest at 3 per cent. An absorption rate above 100 per cent is irregular and should be regularised through a Supplementary Budget before the end of the financial year.

3.22.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Improvement in absorption of development budget. In the reporting period, the County attained an absorption rate of 46.7 per cent compared to 26.8 per cent in a similar period in FY 2015/16.
- The local revenue collection has improved by 19.9 per cent to Kshs.960.64 million in the first nine months of FY 2016/17 from Kshs.783.58 million in a similar period of FY 2016/17.
- Establishment of the County Budget and Economic Forum as per Section 137 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- High wage bill that increased by 11.1 per cent from Kshs.2.97 billion in the first nine months of

FY 2015/16 to Kshs.3.30 billion in the period under review. The wage bill accounted for 53.3 per cent of total expenditure in the reporting period.

2. Failure to establish an Internal Audit Committee contrary to Section 155 of the PFM Act, 2012.
3. Delays by the Fund Administrators of both the County Assembly and the County Executive Car and Mortgage Funds to submit expenditure reports contrary to Section 168 of the PFM Act, 2012.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Public Service Board should establish an optimal staffing structure in order to manage the ballooning wage bill.*
2. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*
3. *The CECM-F should ensure the Fund Administrators prepare and submits expenditure reports on the in line with Section 168 of the PFM Act, 2012.*

On the other hand the Department of Sand Authority had the highest percentage of recurrent expenditure to recurrent budget at 87.8 per cent followed by the Department of Health Services at 76.6 per cent.

3.23.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Establishment of an Internal Audit Committee and strengthening of the Internal Audit Department to oversee financial operations as required by Section 155 of the PFM Act, 2012.
- ii. Improvement in absorption of development budget from 14.9 per cent in a similar period of FY 2015/16 to 43.4 per cent in the reporting period.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Delay in disbursement of the equitable share of revenue raised nationally by the National Treasury. As at the end of the reporting period, Kshs.3.76 billion had been disbursed against an expected disbursement of Kshs.4.86 billion.
2. Under-performance in local revenue collection. The local revenue collected in the first nine months of FY 2016/17 was Kshs.153.51 million which was 30.7 per cent of the annual local revenue target of Kshs.500 million.
3. Delays by Fund Administrators to submit expenditure reports on the established County Funds, such as Bursary Fund, Emergency Fund, Assembly Car & Mortgage Fund, and, the Tetheka Fund.
4. IFMIS connectivity challenges, which slowed down approval of procurement requests and payments to suppliers.
5. Failure by County Assembly Members to regularly repay the Car and Mortgage Loans as required by the Makueni County Assembly Car and Mortgage Scheme Regulations, 2014.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should liaise with the National Treasury to ensure that funds allocated to the County are released in a timely manner in line with CARA, 2016 Disbursement Schedule.*
2. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
3. *The Fund Administrators should ensure timely submission of financial reports in line with Section 168 of the PFM Act, 2012.*
4. *The County Treasury should liaise with IFMIS Directorate for support in application of IFMIS and E-procurement module.*

5. *The Administrator of the Car Loan and the Mortgage Fund should ensure all disbursed loans are repaid as per the approved regulations.*

3.24.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation which included:

- Improvement in absorption of development budget from 27.4 per cent in the first nine months of FY 2015/16 to 50.3 per cent in the reporting period.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Under-performance in local revenue collection. Local revenue collection declined by 33.9 per cent from Kshs.59.65 million in the first nine months of FY 2015/16 to Kshs.44.55 million in the reporting period.
2. From analysis of imprest bank statements, the Office has noted that a substantial amount of money was transferred to imprest accounts. This may imply that some payments were made from the imprest accounts rather than through the internet banking platform as required by the National Treasury.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
2. *The County Treasury should discourage direct cash payments, which is prone to abuse, by maintaining optimal imprest cash-level.*

3.25.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Improvement in absorption of development budget. In the reporting period, the County attained an absorption rate of 35.1 per cent compared to 29.4 per cent attained in a similar period of FY 2015/16.
- ii. Establishment of an Internal Audit Department in line with section 155 of the PFM Act 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected timely preparation of budget implementation report.
2. Failure by Fund Administrators to submit expenditure reports on established County Funds to the Controller of Budget. Expenditure returns which were pending included for Bursary Fund, Emergency Fund, and Car & Mortgage Fund for both the County Assembly and the Executive contrary to Section 168 of the PFM Act, 2012.
3. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.
4. Failure by the County Assembly to process all financial transactions through the IFMIS system.

The County should implement the following recommendations in order to improve budget execution;

- 1. The County Treasury should ensure timely preparation and submission of financial reports in line with Section 166 of PFM Act, 2012.*
- 2. Fund Administrators should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*
- 3. The County Treasury should liaise with the IFMIS Directorate for support in application of IFMIS and the E-procurement module.*
- 4. The County Treasury should liaise with the County Assembly to ensure all transactions are processed through the IFMIS system.*

3.26.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Timely submission of quarterly financial reports by the County Government entities in line with Section 166 of the PFM Act, 2012.
- ii. Alignment of revenue estimates to the CARA, 2016 through the Supplementary Budget that was approved in March, 2017

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Delay by Fund Administrators to regularly submit quarterly expenditure reports on the Bursary Fund, and Car & Mortgage Fund contrary to Section 168 of the PFM Act, 2012.
2. Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to Section 155 of the PFM Act, 2012.
3. Non- disclosure of revenue generated through AMS (Agricultural Mechanization Services) and ATC (Agricultural Training Centre).

The County should implement the following recommendations in order to improve budget execution;

1. *The Administrators of the Bursary Fund, and County Executive Staff Car Loan and Mortgage Fund should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*
2. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*
3. *All revenue raised by the County should be clearly disclosed and deposited into the CRF account in line with Section 109 of the PFM Act, 2012.*

3.27.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Establishment of an audit committee in compliance with Section 155 (5) of the PFM Act, 2012.
- Improved staff capacity especially on the use of IFMIS, E-procurement and Internet Banking modules.
- Establishment of a County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- High wage bill that increased by 8.8 per cent from Kshs.168 billion in the first nine months of FY 2015/16 to Kshs.1.83 billion in the period under review, and represented 42.1 per cent of total expenditure.
- Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation report contrary to Section 166 of the PFM Act, 2012.

The County should implement the following recommendations in order to improve budget execution;

- The County Public Service Board should establish and implement an optimal staffing structure in order to manage the wage bill.*

2. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of PFM Act, 2012.*

3.28.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Establishment of a County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.
- Improvement in local revenue collection by 22.8 per cent from Kshs.1.58 billion in the first nine months of FY 2015/16 to Kshs.1.94 in the reporting period.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation report.
- Delay by Fund Administrators to submit expenditure reports on the established County Funds contrary to Section 168 of the PFM Act, 2012. The expenditure returns which were pending included for Bursary Fund, Emergency Fund and Car & Mortgage Fund.

The County should implement the following recommendations in order to improve budget execution;

1. *The County should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*
2. *Fund Administrators should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*

3.29.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Adherence to SRC guidelines on MCAs sitting allowances.
- ii. Improved capacity of technical staff through training.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Late submission of financial reports by the County Treasury, which affected timely preparation of budget implementation report.
2. Spending of revenue at source contrary to Section 109 of the PFM Act 2012.
3. Under-performance in local revenue collection. Local revenue collection declined by 13.1 per cent from Kshs.450.82 million in by the third quarter of FY 2015/16 to Kshs.391.66 million in the reporting period.
4. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports in*

line with Section 166 of PFM Act, 2012.

- 2. The County Treasury should ensure that all local revenues collected is deposited intact into the County Revenue Fund as required in Section 109 of the PFM Act, 2012*
- 3. The County Treasury should formulate and implement strategies to enhance local revenue collection.*
- 4. The County Treasury should liaise with the IFMIS Directorate for support in the application of IFMIS and the E-procurement module.*

3.30.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Improvement in staff capacity through training and recruitment of technical staff.
- ii. Timely submission of financial reports to the Office of the Controller of Budget.

Despite the above progress, the following challenges continued to hamper effective budget implementation.

1. Decline in local revenue collection. The local revenue collected in the reporting period of Kshs.8.72

billion represented a decline 9.4 per cent from Kshs.9.62 billion collected in the similar period of FY 2015/16.

2. Spending of revenue at source contrary to Section 109 of the PFM Act 2012.
3. High personnel emoluments which accounted for 63.6 per cent of the total expenditure in the reporting period, thus constraining funding to other programmes.
4. Low implementation of development projects in the first nine months of FY 2016/17. The County incurred cumulative development expenditure of Kshs.1.48 billion accounting for an absorption rate of 12.9 per cent.
5. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
2. *The County Treasury should ensure that all local revenue collected is deposited into the County Revenue Fund account as required by Section 109 of the PFM Act, 2012.*
3. *The County Public Service Board should develop an optimal staffing structure, devise and implement strategies to manage the wage bill.*
4. *The County should come up with measures to address the low absorption of development funds in order to enhance implementation of development activities.*
5. *The County Treasury to liaise with the IFMIS Directorate for support in utilization of IFMIS and E-procurement module.*

3.31.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Establishment of the County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.
- Establishment of an Internal Audit Committee in line with Section 155 (5) of the PFM Act, 2012.
- Timely submission of quarterly reports in line with Section 166 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Under-performance in local revenue collection. Local revenue collection declined by 26 per cent from Kshs.1.52 billion in the first nine months of FY 2015/16 to Kshs.1.13 billion in the reporting period.
2. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
2. *The County Treasury should liaise with the IFMIS Directorate for support in application of IFMIS and the E-procurement module.*

- IFMIS connectivity challenges, which slowed down approvals of procurement requests and payment to suppliers.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of PFM Act, 2012.*
2. *The County Assembly should observe the timelines stipulated in law in the approval of key planning documents so as to facilitate smooth implementation of the budget.*
3. *The County should reconcile the IFMIS & IPPD data on a monthly basis to enhance accuracy in reporting.*
4. *The County Treasury should liaise with the IFMIS Directorate for support in use of IFMIS and the E-procurement module.*

On the other hand, the Department of Transport had the highest percentage of recurrent expenditure to its recurrent budget at 139.1 per cent (a performance of above 100 per cent is irregular and should be regularised by way of passage of a Supplementary Budget) while the Department of Public Service Board had the lowest at 45.4 per cent.

3.33.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Improvement in local revenue collection by 5 per cent from Kshs.1.40 billion collected in the first nine months of FY 2015/16 to Kshs.1.47 billion in the reporting period.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. IFMIS connectivity challenges which slowed down processing of financial transactions.
2. Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to the provisions of Section 155 of the PFM Act, 2012.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should liaise with the IFMIS Directorate for support in the use of IFMIS.*
2. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*

3.34.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- i. Enactment of the Bursary Fund Regulations which will enhance administration of the bursary allocation.
- ii. Timely approval of a Supplementary Budget to regularise revenue and expenditure items for conformity with the CARA, 2016.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Late submission of financial reports by the County Treasury contrary to Section 166 of the PFM Act, 2012, which affected timely preparation of budget implementation report.
2. Delay by the Bursary Fund Administrator to submit expenditure reports contrary to Section 168 of the PFM Act, 2012
3. Under-performance in local revenue collection. Local revenue collection has declined by 4.1 per

cent from Kshs.79.62 million in the first nine months of FY 2015/16 to Kshs.76.32 million in the reporting period.

4. A high wage bill that increased by 6.3 per cent from Kshs.1.33 billion in the first nine months of FY 2015/16 to Kshs.1.41 billion during the period under review, and translated to 53.3 per cent of total expenditure.
5. Failure to reconcile IFMIS payroll data to the IPPD data. While IFMIS reports indicate total expenditure on personnel emoluments as Kshs.1.41 billion, data from the IPPD indicate Kshs.1.39 billion as the total payroll costs for the same period.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports in line with Section 166 of PFM Act, 2012.*
2. *The Bursary Fund Administrator should ensure timely submission of expenditure reports in line with Section 168 of the PFM Act, 2012.*
3. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
4. *The County Public Service Board should establish an optimal staffing structure in order to manage the wage bill and ensure compliance with Regulation 25(1) (b) of the Public Finance Management (County Governments) Regulations, 2015.*
5. *The County should reconcile the IFMIS & IPPD data on a monthly basis to enhance accurate reporting.*

3.35.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Improved absorption of development funds. Development expenditure recorded an absorption rate of 38.2 per cent (Kshs.761.29 million), which was an increase from 25.31 per cent (Kshs.562.07 million) attained in a similar period of FY 2015/16.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- High wage bill which accounted for 44.8 per cent of total expenditure during the reporting period, and thus constraining funding to other planned programmes. The wage bill increased by 17 per cent from Kshs.1.23 billion in the first nine months of FY 2015/16 to Kshs.1.43 billion in the reporting period.

2. IFMIS connectivity challenges, which slowed down approval of procurement requests and payments to suppliers.
3. Local revenue collection was below the target. The County collected Kshs.212.3 million which was 54.4 per cent of the annual local revenue target of Kshs.390 million.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Public Service Board should develop an optimal staffing structure to address the escalating wage bill.*
2. *The County Treasury to liaise with the IFMIS Directorate for support in application of IFMIS and E-procurement module.*
3. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*

3.39.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Improved staff capacity through training, particularly on IFMIS by both the County Executive and the County Assembly.
- Establishment of a County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- High wage bill that has increased by 15.6 per cent from Kshs.1.35 billion in the first nine months of FY 2015/16 to Kshs.1.56 billion during the period under review, and represented 61.2 per cent of total expenditure.
- Under-performance in local revenue collection. Local revenue collection has declined from Kshs.116.8 million in the first nine months of FY 2015/16 to Kshs.114.6 million in the reporting period.
- Low absorption of development funds, which declined from 22.9 per cent in a similar period of FY 2015/16 to 19.8 per cent in the period under review.
- Delay by Fund Administrators to submit expenditure reports on the Bursary Fund and the Car & Mortgage Fund contrary to Section 168 of the PFM Act, 2012.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Public Service Board should ensure the staffing structure is optimal to ensure a sustainable wage bill.*
2. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
3. *The County should come up with measures to improve absorption of development funds.*
4. *The Administrators of the Bursary Fund and Car & Mortgage Fund should submit quarterly financial reports in line with Section 168 of the PFM Act, 2012.*

3.40.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Timely submission of the quarterly expenditure returns to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.
- Improved staff capacity especially on the use of IFMIS as a result of continuous training.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.
- Under-performance in local revenue collection. Local revenue collection represented 37.1 per cent of the annual local revenue target and below the 75 per cent expected performance over the nine months period.

The County should implement the following recommendations in order to improve budget execution;

- 1. The County Treasury should liaise with the IFMIS Directorate for support in use of IFMIS and the E-Procurement module.*
- 2. The County Treasury should formulate and implement strategies to enhance local revenue collection.*

3.42.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Improvement in absorption of development funds to 43.8 per cent attained in the first nine months of FY 2016/17 compared to 21.3 per cent achieved in the same period of FY 2015/16.

- ii. Timely submission of quarterly reports by the County Government entities in line with Section 166 of the PFM Act, 2012. The quarterly report for the reporting period was submitted on 12th April, 2017.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

1. Delay in disbursement of the equitable share of revenue raised nationally by the National Treasury. As at the end of the reporting period, Kshs.3.71 billion had been disbursed against an expected disbursement of Kshs.4.15 billion.
2. Under performance in local revenue collection. The local revenue collection declined by 25.2 per cent from Kshs.235.97 million in the third quarter of FY 2015/16 to Kshs.176.55 million in the reporting period.
3. Intermittent use of IFMIS, which is the prescribed financial system to record and report all financial transactions contrary to Section 12 of the PFM Act, 2012.
4. Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to Section 155 of the PFM Act, 2012.
5. High wage bill that increased by 25.2 per cent from Kshs.1.27 billion in the first nine months of FY 2015/16 to Kshs.1.59 billion in the period under review, and translated to 38.8 per cent of total expenditure.
6. The average monthly sitting allowance per MCAs was Ksh.136,251 which exceeded the SRC recommend ceiling of Ksh.124,800.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Treasury should liaise with the National Treasury to ensure that funds allocated to the County are released in a timely manner in line with the CARA, 2016 Disbursement Schedule.*
2. *The County Treasury should formulate and implement strategies to enhance local revenue collection.*
3. *The County Treasury should liaise with the National Treasury to ensure IFMIS is used by all county public entities in processing financial transactions.*
4. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*

5. *The County Public Service Board should establish an optimal staffing structure in order to manage the wage bill.*
6. *The County Assembly should ensure adherence to the SRC guidelines on MCA sitting allowances. All payments in excess of the SRC guidelines should be recovered.*

3.43.9 Observations and Recommendations

- i. Improvement in absorption of development funds. In the reporting period, the county attained an absorption rate of 47.2 per cent as compared to 36 per cent same period in FY 2015/16.

Despite the above progress, the following observations continued to hamper effective budget implementation in the County;

1. Late submission of financial reports to the Controller of Budget by the County Treasury, which affected timely preparation of budget implementation report. Section 166 of the PFM Act, 2012 requires the financial reports to be submitted by the 15th day after the end of each quarter.
2. Delay by Fund Administrators to submit financial reports on the established County Funds contrary to Section 168 of the PFM Act, 2012. The financial reports which are pending include Bursary Fund, Emergency Fund, Car & Mortgage Fund and Youth and Women Development Programme (Grants) reports.
3. Delay in establishment of an Internal Audit Committee to oversee financial operations in the County contrary to the provisions of Section 155 of the PFM Act, 2012.
4. Intermittent use of IFMIS, which is the prescribed financial system to record and report all financial transactions contrary to provisions of Section 12 of the PFM Act, 2012.

The County should implement the following recommendations in order to improve budget execution

1. *The County Treasury should ensure timely preparation and submission of financial reports in line with Section 166 of PFM Act, 2012.*
2. *The Fund Administrator for Bursary Fund, Emergency Fund, Car Loan and Mortgage Fund and Youth and Women Development should ensure timely submission of financial reports in line with Section 168 of the PFM Act, 2012.*
3. *The County should establish an Internal Audit Committee in line with Section 155 of the PFM Act, 2012.*
4. *The County Treasury should liaise with the National Treasury to ensure IFMIS is used by all county public entities in processing financial transactions.*

- Compliance with the requirement to use IFMIS and the internet banking platform by the County Executive, which has ensured transparent financial management and standard financial reporting in the County as contemplated by Article 226 of the Constitution.

Despite the above progress, the following challenges continued to hamper effective budget

implementation;

1. The County Assembly operationalized the Uasin Gishu County Assembly Staff Mortgage Fund prior to the approval of the Fund Regulations contrary Section 116 of the PFM Act, 2012.
2. Slow implementation of development activities during the first nine months of FY 2016/17. The County spent Kshs.781.43 million on development projects which represented 28.8 per cent of the annual development budget of Kshs.2.68 billion.
3. Failure to establish a County Budget and Economic Forum (CBEF) contrary to Section 137 of the PFM Act, 2012.

The County should implement the following recommendations in order to improve budget execution;

1. *The County Assembly should ensure that Uasin Gishu County Assembly Staff Mortgage Fund Regulations are approved to regularize operationalization of the Fund.*
2. *The County should identify and address issues that cause delays in implementation of development projects.*
3. *The County should establish a County Budget and Economic Forum (CBEF) as per Section 137 of the PFM Act, 2012.*

3.47.9 Observations and Recommendations

The County has made progress in addressing some of the challenges previously identified as affecting budget implementation. Some of the progress made included:

- Establishment of the County Budget and Economic Forum (CBEF) in line with Section 137 of the PFM Act, 2012.
- Timely submission of quarterly financial reports to the Controller of Budget by County Government entities in line with Section 166 of the PFM Act, 2012.

Despite the above progress, the following challenges continued to hamper effective budget implementation;

- Delay in disbursement of the equitable share of revenue raised nationally by the National Treasury. As at the end of the reporting period, Kshs.3.14 billion had been disbursed against an expected disbursement of Kshs.3.51 billion
- Failure to establish an Internal Audit Committee to oversee financial operations in the County contrary to Section 155 of the PFM Act, 2012
- Failure by Fund Administrators to submit expenditure reports of the Car Loan and Mortgage Fund, County Assembly Members Car Loan and Mortgage Fund, and the Biashara Mashinani Fund contrary to Section 168 of the PFM Act, 2012.
- Under-performance in local revenue collection, which declined by 23.2 per cent from Kshs.76.16

million in the first nine months of FY 2015/16 to Kshs.58.46 million in the reporting period.

5. Failure to designate a fund administrator for the County Biashara Mashinani Fund contrary to section 116 of the PFM Act, 2012.
6. Failure to reconcile the IFMIS payroll data to the IPPD data resulting in discrepancies between the two records. The IFMIS reports indicated total expenditure on personnel emoluments for the County Executive as Kshs.1.01 billion while data from the IPPD indicated Kshs.919.07 million as the total payroll costs for the reporting period.
7. IFMIS connectivity challenges, which slowed down approval of procurement requests and payment to suppliers.

The County should implement the following recommendations in order to improve budget execution;

4 KEY CHALLENGES AND RECOMMENDATIONS

This section highlights cross-cutting challenges that affected budget implementation in the first nine months of FY 2016/17. It also makes recommendations aimed at addressing the challenges in order to enhance smooth budget execution by the County Governments. The challenges included:

4.1 High Expenditure on Personnel Emoluments

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. In the reporting period, a total of thirty six counties reported expenditure on personnel emoluments that exceeds 35 per cent as a proportion of total cumulative expenditure.

On aggregate, the County Governments spent Kshs.91.39 billion on personnel emoluments (PE), which accounted for 4.4 per cent of the total expenditure for the period representing an increase of 6.5 per cent from Kshs.85.82 billion incurred in a similar period of FY 2015/16 where the personnel expenditure translated to 46.7 per cent of the total expenditure.

The Office recommends that personnel emoluments should be maintained at sustainable levels and in line with Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015.

4.2 Delay in Submission of Quarterly Reports on Financial and Non-financial Performance

Section 166 (4) of the PFM Act 2012 requires the County Treasury to submit quarterly reports on financial and non-financial performance to the Controller of Budget not later than thirty days after the end of each quarter. Despite this requirement, the Office has noted continued delay by some Counties in the submission of these reports, thereby leading to delay in preparation of quarterly Budget Implementation Review Reports.

We recommend that counties should ensure timely submission of reports on financial and non-financial performance in line with Section 166 of the PFM Act, 2012.

4.3 Establishment and Operationalization of County Budget and Economic Forums (CBEF)

Section 137 of the PFM Act, 2012 requires a County Government to establish the County Budget and Economic Forum (CBEF) to provide means for consultation on matters pertaining to budgeting and financial management at the County level.

The Office noted that, some counties are yet to establish these Forums while in some counties where the Forums have been established, they are yet to be fully operationalized. It is therefore recommended that County Governments should comply with Section 137 of the PFM Act 2012 and establish effective CBEFs.

4.4 IFMIS Connectivity Challenges

In order to ensure transparent financial management and standard financial reporting, the National Treasury prescribed IFMIS for use by the national and county governments in line with Section 12 (1) (e) of the PFM Act, 2012. This system has now been adopted by all county governments.

During the reporting period, the Office observed that most Counties experienced IFMIS connectivity challenges which resulted in delays in approval of procurement requests and payments to suppliers and staff, and also led to delayed financial reporting by the County Treasuries.

The Office recommends that the Counties should liaise with the IFMIS Directorate at the National Treasury to ensure uninterrupted support in the application of IFMIS.

4.5 Under-performance in Local Revenue Collection

Article 209 (3) of the Constitution allows County Governments to impose property rates, entertainment taxes and any other tax that a county is authorised to impose by an Act of Parliament.

During the reporting period, the County Governments generated a total of Kshs.24.71 billion, which was 41.4 per cent of the annual target of Kshs.59.71 billion. This was a decrease compared to Kshs.25.89 billion (46.9 per cent of FY 2015/16 annual revenue target of Kshs.55.16 billion) realised in a similar period of FY 2015/16. The under-performance in local revenue collection implies that, some planned activities may not be implemented or if implemented, Counties will accumulate pending bills by close of the financial year.

The Office recommends that, Counties should develop and implement strategies to mobilize local revenue collection such as automation and enhanced enforcement.

4.6 Delays in Establishment of Internal Audit Committees

Section 155 of the PFM Act, 2012 and Regulation 167 of the PFM (County Governments) Regulations, 2015 requires County Governments to establish Internal Audit Committees.

During the reporting period, the Office noted that some Counties were yet to establish an Internal Audit Committee as required by law, which may compromise transparency and accountability in the management of public resources. These counties included; Busia, Garissa, Isiolo, Kilifi, Kirinyaga, Laikipia, Lamu, Machakos, Meru, Narok, Nyeri, Siaya, Tharaka Nithi, Trans Nzoia, Turkana, Wajir and West Pokot.

The Office recommends that Counties should establish Internal Audit Committees in order to enhance public financial management in line with Section 155 of the PFM Act 2012.

5 CONCLUSION

This report sought to provide information on budget implementation during the first nine months of the financial year 2016/17 by the County Governments. The report was prepared in fulfilment of Article 228(6) of the Constitution of Kenya 2010 and Section 9 of the Controller of Budget Act, 2016.

The report indicates that overall absorption of funds improved to 51.9 per cent compared to 50.3 per cent attained in a similar period in the last financial year. On aggregate, the Counties spent Kshs.145.07 billion on recurrent expenditure and Kshs.62.74 billion on development activities against the recurrent budget of Kshs.234.73 billion and development budget of Kshs.165.51 billion. This expenditure translated to an absorption rate of 61.8 per cent and 37.9 per cent for recurrent and development expenditure respectively.

The enhanced budget implementation performance is attributed to better planning and increased staff capacity through training and the efforts instituted by counties to address challenges that affected budget implementation in the past. Further, the role played by oversight institutions such as the County Assemblies, the Senate, and the general public have also led to enhanced efforts in budget implementation by the Counties.

This report has identified challenges which have continued to hamper effective budget executive. The challenges included; high expenditure on personnel emoluments, delay in submission of reports on financial and non-financial performance, delay in establishment of the County Budget and Economic Forums, IFMIS connectivity challenges, under performance in local revenue collection, and delay in establishment of Internal Audit Committees. The report provides recommendations on how to address the challenges and enhance budget execution in the future.

The OCOB is focused on ensuring that there is reasonable and effective use of public resources by all county public entities and will continue to provide regular Budget Implementation Review Reports to all stakeholders in order to enhance prudent use of public funds in the country.
